

Idaho 99s May 2016 Newsletter

Gene Nora provided current information about our friend Dell Keys. As most know, Dell underwent extensive and successful back surgery similar to what Pat Jenkins endured. Dell is now dealing with her third knee replacement - the same knee. It is infected so badly that it drips to the extent that she replaces the dressing three times daily. She is now dealing with a new doctor who is willing to attempt to remove all the metal in the knee and start all over. She realizes that there's only a 50/50 chance of saving the leg, with surgery in SLC scheduled for May 19th. Dell's daughter Robin (whose phone number is [208-342-7082](tel:208-342-7082)) is lobbying for Dell to spend her recovery time with her family in Boise. We all know how strong-willed Dell is so don't know if she'll be with Robin or home. I believe it is time for all of us to pray for Dell and her health. Patty Pilot suggests that we shower Dell with best wishes now and her home address is 798 Huntridge Drive, Moab, UT 84532. Gene Nora

And Wendy completed her Commercial Certificate!

Hello All,

Here's the updated flyer as promised. Two sections, summer and early fall, are offered this year. There were requests for July 21-24 and I added the fall because many have summers that are simply too full. Please feel free to contact me with questions and requests. I have much new research added to this year's presentation which will make it better than ever. I'm looking forward to meeting you here. Let me know how I can help you arrange your travel to Smiley Creek, Idaho. And thank you for forwarding this flyer to anyone, 99s sections, pilot associations that you know who may be interested.

Here's to Fun Flights,

Christina Tindle

Learning is fun at this "One of a Kind," symposium that boosts flight confidence, skills, and joy. Christina Tindle, LPC, reveals her Woman Wise Airmanship Model based in neuroscience, positive psychology, contemplative studies, women studies, aeronautical human factors research, and Olympic Mental Training.

This positive-approach highlights women's ways of knowing, learning styles, communication, passion, leadership, upside of negative feelings, taming fear through wonder, increased tolerance for bliss (*yes, you heard me*), and opening learning centers in the brain for faster assimilation of flight skills.

Presentations, flight instruction, class exercises, and laughter culminate with individually tailored Woman Wise Airmanship Flight-Life Plans. We will have our returning massage therapist.

Optional flight instruction available (extra cost): basic back country bush flying, paragliding, intro to tail-wheels, and possible gyro instruction. Fly your own aircraft for instruction or limited aircraft available to rent at symposium. Free tie-down. Promises to elevate confidence and skills.

Free camping with hot showers and bath house OR limited, affordable group lodging, cabins & teepees available—*Your cost*. Contact Smiley Creek Lodge directly for reservations for lodge room, cabin, yurt, or teepee at 208-744-3547 after May 25th for season reopening.
